

HYBRID RESERVATION MODEL FOR INDIA

Social Justice + Economic Justice + Governance Accountability

EXECUTIVE SUMMARY

Problem: Current reservation is caste-only, permanent, and untracked. Benefits often don't reach the poorest because of a lack of nuanced targeting and "creamy layer" stagnation.

Solution: A 2-Pillar, Data-Driven, Time-Bound system where reservation is designed as a bridge to empowerment, not a permanent destination.

"Reservation based on how much you need it today, not just what your grandfather faced."

THE 2-PILLAR + MDI SYSTEM

PILLAR 1: SOCIAL DISADVANTAGE

Applicable to all categories (ST, SC, OBC, General-EWS). Sub-divided into three tiers based on historical data and contemporary atrocity records.

TIER	% OF COMMUNITY QUOTA	CRITERIA
A: Extremely Disadvantaged	60%	Lowest literacy, highest atrocities, lowest representation.
B: Moderately Disadvantaged	40%	Communities with mid-level socio-economic indicators.
C: Advanced	0%	Moved to "Creamy Layer" monitoring (Economic eligibility only).

PILLAR 2: ECONOMIC DISADVANTAGE

Verified via Aadhaar, IT returns, Land records, and Bank databases.

PRIORITY	ANNUAL FAMILY INCOME	ASSET CHECK	MDI POINTS
P1: Critical	< ₹3 Lakh	< 2 acres land, no pucca house	30
P2: High	₹3-6 Lakh	< 5 acres, 1 vehicle	20
P3: Moderate	₹6-10 Lakh	< 10 acres	10
P4: Not Eligible	> ₹10 Lakh (3 yrs)	-	0 (Creamy Layer)

MULTI-FACTOR DISADVANTAGE INDEX (MDI)

A composite score of 100 Points. Seats are allocated to the highest MDI scores within each respective category.

FACTOR	WEIGHTAGE	EXAMPLES
1. Social Background	40	ST/SC/OBC Tier A or B status
2. Economic Status	30	Income, Assets, Land holding
3. Education + Location	20	Rural, First-gen learner, Parents education < 10th
4. Specific Hardships	10	Disability, Orphan, Single Parent, Remote Area

Comparative Example:

Family A: SC Tier A, Income 2.5L, Rural, First-gen → $40 + 30 + 18 + 5 = 93$ MDI

Family B: SC Tier B, Income 9L, Urban, Parents Graduate → $25 + 10 + 5 + 0 = 40$ MDI

Result: Family A receives priority based on objective disadvantage.

TIME-BOUND REVIEW & ACCOUNTABILITY

REVIEW CYCLES

CATEGORY	REVIEW PERIOD	SUNSET TRIGGER
ST	10 Years	If 3/5 metrics met, reduce quota by 2%
SC	7 Years	If 3/5 metrics met, reduce quota by 2%
OBC	5 Years	If 3/5 metrics met, reduce quota by 2%
EWS	3 Years	If 3/5 metrics met, phase out to General

5 LEGAL METRICS TO DEFINE "UPLIFTED"

1. Literacy Rate > National Avg - 5%
2. Higher Education Enrolment > 25%
3. Govt Job Representation > 50% of the allocated quota
4. Average Household Income > ₹6 Lakh
5. Reported Discrimination Cases < National Average

Government Accountability Clause

If < 3 metrics are met within a cycle, the Government **must** table a White Paper in Parliament within 90 days identifying fund usage, scheme failures, and a new 5-year Action Plan. The development budget for that district/community auto-increases by 15%.

SAFEGUARDS & IMPLEMENTATION

- **Grandfather Clause:** Existing beneficiaries continue existing terms until graduation. New rules apply to fresh applicants only.
- **Graduation Benefits:** Once a family crosses ₹10L income for 3 years, they transition to a 2-year Bridge Scholarship and priority in Mudra/Skill loans instead of seat reservation.
- **Anti-Fraud Infrastructure:** QR-coded MDI Cards with automated database verification. Fraudulent claims result in a 10-year ban and heavy financial penalties.
- **Independent Commission:** A Constitutional body appointed by the CJI, PM, and Leader of Opposition (LoP). It maintains a live transparency dashboard.
- **No Net Loss Guarantee:** Total reservation percentage is frozen for the first 10 years. Reforms only affect internal reallocation.
- **50% Development Mandate:** For every ₹1 spent on reservation administration, ₹1 must be invested in schools, coaching, and hostels specifically in that category's districts.

SYSTEM FLOW

Dynamic Response:

Metrics Met?

Yes → Reduce reservation gradually + Shift to Development budget.

No → Compulsory Govt Report + 15% Budget Top-up + Continue support.

EXPECTED OUTCOMES

Targeted

Ensures 80%+ of benefits reach the bottom 40% of every community.

Transparent

Blockchain/Live data tracking to eliminate fake certificates.

Temporary

Establishes a clear, dignified path to "graduate" out of the system.

Accountable

Shifts the burden of proof for eligibility to the Government.

Fundamental Fairness

Ensures a poor student from any background (General or SC) receives assistance based on their needs.
